1 Getting Started

1.1 How to Log In

Purpose: Access the Admin Panel to manage your college website.

Who uses this: College Administrators and IT Staff.

When to use: Every time you want to update website content.

- ① **Email Address field** — Enter your administrator email (e.g., admin@nreccollege.ac.in)
- ② **Password field** — Enter your password. Click the  eye icon to show or hide it.
- ③ **Log In button** — Click this after entering your credentials to sign in.
- ④ **Forgot Password** — Click this if you cannot remember your password. A reset link will be sent to your email.

- 1 **Open your browser and go to the Admin Panel URL**
Type `http://your-college-website.ac.in/admin/login` in the address bar.

- 2 **Enter your Email Address**
Default: `admin@nreccollege.ac.in`

- 3 **Enter your Password**
Default: `admin@123` — Change this immediately after first login!

4

Click "Log In to Admin Panel"

You will be taken to the Dashboard automatically if your credentials are correct.

**Change Your Password First**

The default password is `admin@123`. Go to your Profile (top-right) and change it immediately after first login. Never share your password with anyone.

**Too Many Failed Attempts**

After 20 failed login attempts in 15 minutes, the system will temporarily block access. Wait 15 minutes before trying again. If needed, contact your IT department.

**Training Video: Logging In to the Admin Panel**

A short video showing the complete login process will be added here by your IT team.

1.2 Dashboard Overview

Purpose: The Dashboard is your main control centre. It shows a summary of everything happening on the website.

Who uses this: All administrators.

When to use: Every time you log in, start here to see the current status.

①

Sidebar (left panel) — All modules are listed here. Click any item to navigate.

②

Quick Stats — Shows how many news articles, events, notices, and courses exist on the website.

- ③ **Recent Activity** — Shows the most recent changes made to the website.
- ④ **Quick Action buttons** — Shortcuts to the most common tasks (Add News, Post Notice, etc.).
- ⑤ **System Status** — Shows the database connection status and app version.
- ⑥ **View Website button** — At the bottom of the sidebar. Opens the public website in a new tab.

Start Here Every Day

Check the Dashboard first to see recent updates and use Quick Actions for the most common tasks.

Training Video: Dashboard Overview

Video walkthrough of the Dashboard sections will be added here.

1.3 Sidebar Navigation Guide

The sidebar on the left side of the screen contains links to every module. Here is what each section means:

Icon & Name	What You Can Do
 Dashboard	Overview of the website — quick stats, recent activity
 Website → Homepage	Edit the homepage welcome section and hero sliders
 Website → Website Pages	Edit page content (About Us, Admissions, Contact, etc.)
 Website → Website Menu	Add, remove, or reorder navigation links in the top menu

 Website → Banners	Manage the large sliding images at the top of the homepage
 Academics → Departments	Add and manage college departments
 Academics → Courses	Add and manage courses offered by the college
 Academics → Faculty	Add and manage faculty profiles with photos
 Academics → Curriculum	Upload syllabus PDFs for each course
 Campus Updates → News	Publish news articles about college activities
 Campus Updates → Notice Board	Post important notices for students and staff
 Campus Updates → Events	Create and publish upcoming events
 Campus Life → Gallery	Upload and organize campus photos
 Campus Life → Downloads	Upload forms, brochures, and PDFs for download
 Campus Life → Media Library	Central store for all uploaded files (images & documents)
 Enquiries	View contact form messages from students
 Website Settings	Update college name, contact info, logo, social media links
 Help Center	FAQs, glossary, this manual

2

Website Content

2.1 Homepage Editor

Purpose: Edit the content that appears on the homepage of your website.

Who uses this: The person responsible for website updates.

When to use: When you want to change the welcome message, tagline, or featured sections.

- ① **Save Changes button** — Click this after editing to save all changes.
- ② **Section tabs** — Switch between different homepage sections (Hero, About, Stats, etc.).
- ③ **Text editor fields** — Type directly to update titles, descriptions, and captions.
- ④ **Image Upload** — Upload a new background or featured image for the section.
- ⑤ **Preview** — Some sections have a preview that updates as you type.

1 Click "Website" then "Homepage" in the sidebar

2 Select the section you want to update (e.g., Hero, About, Stats)

3 Edit the text fields as needed

Keep titles short and clear (e.g., "Welcome to NREC College")

4 Upload images if needed

Recommended size: 1920×1080 px, JPG/PNG, under 5MB

5 Click "Save Changes"

6

Open the website in a new tab and verify

Press Ctrl+Shift+R to force a fresh reload if changes don't appear immediately

**Training Video: Editing the Homepage**

Video for updating homepage content will be added here.

2.2 Website Pages

Purpose: Edit the content of individual pages on your website (About Us, Admissions, Contact, etc.).

Who uses this: Content editors and administrators.

When to use: When you need to update the text on an existing page.

- ① **Page list** — All available pages are shown here (About, Admissions, Contact, etc.).
- ② **Edit button** — Click the  icon next to any page to edit its content.
- ③ **Page URL (slug)** — The web address for that page (e.g., /about-us). Do not change unless told to.
- ④ **Save button** — Saves all changes to the page content.

**Training Video: Editing Website Pages**

Video guide for editing page content will be added here.

2.3 Website Menu

Purpose: Add, remove, or reorder the navigation links that appear in the top bar of the website.

Who uses this: Administrator or IT staff.

When to use: When a new page is added and needs to appear in the navigation, or when existing menu items need reordering.

- ① **Add Menu Item button** — Click to add a new navigation link.
- ② **Label field** — The text visitors see in the menu (e.g., "Placements").
- ③ **Link (URL) field** — The page it links to (e.g., /placements).
- ④ **Order field** — Controls where it appears in the menu. Lower number = appears first.
- ⑤ **Delete button** — Removes a menu item permanently.
- ⑥ **Save button** — Saves all menu changes.

Important

Only add menu items for pages that already exist on the website. If a link points to a non-existent page, visitors will see an error.

2.4 Banners (Homepage Slider)

Purpose: Manage the large slideshow images at the top of the homepage.

Who uses this: Content administrators.

When to use: When you want to promote new events, admissions, or announcements on the homepage.

 Banners Slider

- ① **Add New Banner button** — Opens the form to create a new banner slide.
- ② **Banner image upload** — Upload a full-width image. Recommended: 1920×1080 pixels.
- ③ **Title and Subtitle fields** — The text shown over the image.
- ④ **Button text & link** — Optional call-to-action button (e.g., "Apply Now" linking to /admissions).
- ⑤ **Visibility toggle** — Set to Active to show on website, or Inactive to hide.
- ⑥ **Delete button** — Permanently removes the banner slide.
- ⑦ **Order field** — Controls which banner appears first (1 = first).

**Banner Image Tips**

Use wide landscape images (1920×1080 px). Keep file size under 2MB for fast loading. Use JPG format for photographs. Keep text on the banner short — 5 to 8 words maximum.

3

Academics

3.1 Departments

Purpose: Add and manage all academic departments of the college.

Who uses this: Academic Administrator.

When to use: When a new department is established, or existing department details need updating.

- ① **Add New Department button** — Opens the form to create a new department.
- ② **Search bar** — Filter departments by name.
- ③ **Edit button** — Update an existing department's details.
- ④ **Delete button** — Remove a department. ⚠ Cannot be undone.
- ⑤ **Status badge** — Green = Active (visible on website). Grey = Inactive (hidden).
- ⑥ **Image upload** — Department photo shown on the Departments page.

1 Click Academics → Departments in the sidebar

2 Click "Add New Department"

3 Fill in Department Name (e.g., "Department of Physics")

4 Enter Code (e.g., "PHY"), HOD name, and Description

5 Upload a department image
Recommended: 800×600 px, JPG/PNG

6

Set Status to "Active"

Active = visible on website. Inactive = hidden from visitors.

7

Click "Save"

8

Visit the Departments page to verify

Expected Result: The new department appears on the public Departments page of the website.

Common Mistake: Forgetting to upload an image. Departments without images show a placeholder — always upload a real department or building photo.

3.2 Courses

Purpose: Add and manage all courses offered by the college.

Who uses this: Academic Administrator.

When to use: When admissions open for a new course, or course details change.

①

Add New Course button — Opens the course creation form.

②

Search bar — Find a course by name or code.

③

Department filter — Show only courses from a specific department.

④

Edit button — Update course details such as seats or eligibility.

⑤

Delete button — Remove a course from the website.

⑥

Status toggle — Active = accepting admissions. Inactive = not currently offered.

Training Video: Adding and Managing Courses

Video tutorial for course management will be added here.

3.3 Faculty

Purpose: Add and manage faculty member profiles with photos, designations, and qualifications.

Who uses this: Academic Administrator or Principal's office.

When to use: When a new faculty member joins, or a faculty member's designation/department changes.

- ① **Add New Faculty button** — Opens the faculty addition form.
- ② **Photo upload** — Upload a professional photo. Square images (400×400 px) look best.
- ③ **Department selector** — Assign the faculty member to a department.
- ④ **Display Order** — Controls where this faculty member appears in the list (lower = first).
- ⑤ **Edit / Delete buttons** — Modify or remove a faculty record.

Photo Tips

Use a professional headshot photo. Square format (400×400 px) works best. Avoid group photos or informal images. File size should be under 1MB.

3.4 Curriculum

Purpose: Upload the syllabus / curriculum PDF for each course and semester.

Who uses this: Academic Administrator.

When to use: When a new academic year begins or a revised syllabus is issued.

 Curriculum

- ① **Add Curriculum button** — Opens the curriculum upload form.
- ② **Course selector** — Choose which course this curriculum belongs to.
- ③ **PDF upload button** — Upload the syllabus PDF file.
- ④ **Academic Year field** — Specify the year (e.g., 2025-26).
- ⑤ **Save button** — Saves and publishes the curriculum.

Training Video: Uploading Curriculum PDFs

Step-by-step video for curriculum management will be added here.

4

Campus Updates

4.1 News

Purpose: Publish news articles about college activities, achievements, and announcements.

Who uses this: Content Administrator or Office Staff.

When to use: When you want to share college news with students, parents, and the public.

- ① **Add News button** — Opens the news creation form.
- ② **Search bar** — Search news articles by title or keyword.
- ③ **Status filter** — Filter by Published or Draft.
- ④ **Edit button** — Edit an existing news article.
- ⑤ **Delete button** — Permanently remove a news article.
- ⑥ **Publish / Visibility toggle** — Switch between Published (visible) and Draft (hidden).
- ⑦ **Pagination** — Navigate between pages of news articles.

How to Publish a News Article

- ① **Title field** — Write a clear, descriptive headline for the news article.
- ② **Banner image upload** — Upload an image for the news article. Recommended: 1200×628 px.
- ③ **Content editor** — Write the full article text here. Use paragraphs for readability.

- ④ **Category selector** — Choose a category (Academic, Sports, Cultural, Administrative).
- ⑤ **Visibility selector** — "Publish to Website" = live. "Save as Draft" = hidden.
- ⑥ **Save button** — Saves and publishes the article.

1 **Click Campus Updates → News**

2 **Click "Add News"**

3 **Enter a clear Title**
Example: "Annual Sports Meet 2026 — Registration Now Open"

4 **Upload a Banner Image**
Landscape image, 1200×628 px recommended. JPG/PNG under 3MB.

5 **Write the article content**
Explain what happened, when, where, and who was involved.

6 **Select Category**

7 **Set Visibility to "Publish to Website"**
Or choose "Save as Draft" to review before publishing.

8 **Click "Save"**

9 **Open the News page on the website to verify the article appears**

Common Mistakes:

- Publishing without an image — always upload a banner image, articles look unprofessional without one.

- Writing the content in ALL CAPS — use normal sentence case.
- Not verifying on the website after saving.

Training Video: Publishing a News Article

Complete walkthrough of publishing news will be added here.

4.2 Notice Board

Purpose: Post important announcements and notices for students, parents, and staff.

Who uses this: Administrative staff, Examination Cell, Principal's office.

When to use: Exam schedules, result announcements, holiday notices, fee due dates, etc.

- ① **Add Notice button** — Opens the notice creation form.
- ② **Search bar** — Find notices by title or keyword.
- ③ **Category filter** — Filter by Examination, Admission, General, etc.
- ④ **PDF attachment** — Upload a PDF to be downloaded by students.
- ⑤ **Edit button** — Update notice content.
- ⑥ **Delete button** — Remove an old notice permanently.
- ⑦ **Status badge** — Active = visible on Notice Board. Inactive = hidden.

Keep Notices Concise

Write short, clear notice titles. For long documents (timetables, fee structures), attach a PDF file instead of writing all details in the content field.

Training Video: Posting a Notice

Video for posting notices with PDF attachments will be added here.

4.3 Events

Purpose: Create and publish upcoming events to keep students informed.

Who uses this: Event coordinators, Activities Cell.

When to use: Before any college event — cultural, sports, academic, or administrative.

- ① **Add Event button** — Opens the event creation form.
- ② **Start Date & End Date** — Set the exact dates of the event.
- ③ **Venue field** — Where the event will be held (e.g., College Auditorium).
- ④ **Banner image upload** — A poster or banner image for the event.
- ⑤ **Status selector** — Published = visible. Draft = hidden until ready.
- ⑥ **Edit / Delete buttons** — Modify or remove an event.

Training Video: Creating Events

Video tutorial for event management will be added here.

5

 Campus Life

5.1 Gallery

Purpose: Upload campus photos and organize them into albums for the Gallery page.

Who uses this: Activities Cell, Photography Club coordinator, or Administrator.

When to use: After college events, campus tours, or any photo-worthy activity.

- ① **Add Album button** — Create a new photo album (e.g., "Annual Sports Meet 2026").
- ② **Upload Images button** — Select multiple photos to upload at once.
- ③ **Album selector** — Choose which album the photos belong to.
- ④ **Caption field** — Write a short description for each photo (optional but helpful).
- ⑤ **Delete image button** — Remove a photo from the gallery (cannot be undone).
- ⑥ **Album status** — Active = visible in gallery. Inactive = hidden from visitors.

Gallery Tips

Upload at least 6 photos per album for a good visual display. Use landscape orientation (wider than tall) photos. Keep individual file size under 2MB — compress large images first using squoosh.app (free online tool).

Training Video: Managing the Gallery

Video guide for uploading and organizing gallery photos will be added here.

5.2 Downloads

Purpose: Upload PDFs, forms, brochures, and other files that students can download from the website.

Who uses this: Administrative staff, Examination Cell, Admissions Office.

When to use: When publishing admit cards, fee receipts, application forms, syllabus PDFs, time tables, etc.

- ① **Add New Download button** — Opens the file upload form.
- ② **Title field** — A clear name for the file (e.g., "Exam Timetable Nov 2026").
- ③ **File upload button** — Select the PDF or document file from your computer.
- ④ **Category selector** — Choose a category (Admissions, Examination, Forms, General).
- ⑤ **Visibility toggle** — Published = downloadable by visitors. Draft = hidden.
- ⑥ **Delete button** — Remove a file from the Downloads page.

Verify Before Publishing

Always open the uploaded file first to make sure it is the correct document and not corrupted. Students cannot download a file that is corrupted.

5.3 Media Library

Purpose: A central store for all uploaded images and documents. Any file you upload anywhere is also saved here.

Who uses this: Any administrator who wants to reuse previously uploaded files.

When to use: When you want to reuse an image or document in multiple places, or manage old uploaded files.

- ① **Upload Files button** — Upload new images or documents directly to the library.
- ② **Type filter** — Filter by Images only, or Documents only.
- ③ **Search bar** — Search for files by name.
- ④ **File grid** — Thumbnails of all uploaded files. Click to copy the URL for use elsewhere.
- ⑤ **Delete button** — Remove unused files. ⚠️ Check the file is not still being used before deleting.
- ⑥ **Copy URL button** — Copy the file's web address to paste it into other forms.

Enquiries (Contact Messages)

Purpose: View all messages sent by students or parents through the Contact Us form on the website.

Who uses this: Administrative staff, Admissions Office.

When to use: Check daily for new enquiries from prospective students.

- ① **Message list** — All enquiry messages listed with name, email, and date.
- ② **View button** — Click to read the full message content.
- ③ **Reply by email** — The sender's email is shown — reply to them directly from your email program.
- ④ **Delete button** — Remove old or spam messages.

Respond Promptly

Check this page daily. Respond to prospective students within 24 hours. Copy the sender's email and reply from your college email account.

Training Video: Managing Enquiries

Video for managing contact form messages will be added here.

7

Website Settings

Purpose: Update the core information of your college website — name, contact details, logo, social media, and SEO.

Who uses this: Principal / IT Administrator.

When to use: When phone number, email, address, or social media links change. Once per year for SEO settings.

- ① **College Name field** — The official college name that appears in the header and footer.
- ② **Tagline field** — The motto or tagline (e.g., "Excellence in Education Since 1901").
- ③ **Phone & Email fields** — Contact details shown on the Contact page and footer.
- ④ **Address field** — Full mailing address of the college.
- ⑤ **Logo upload** — College logo shown in the header. Recommended: PNG, transparent background, 200×60 px.
- ⑥ **Social Media links** — Facebook, Instagram, YouTube, Twitter URLs.
- ⑦ **SEO Section** — Meta Title and Description used by Google. Keep under 160 characters.
- ⑧ **Save Settings button** — Saves ALL settings. Always click this after making any change.

Important — Always Save

Changes do NOT save automatically. Always click "Save Settings" after making any changes, or all edits will be lost.

1

Click "Website Settings" in the sidebar

2

Update any fields that need to be changed

3**Scroll to the bottom and click "Save Settings"****4****Open the website in a new tab to verify the changes**

Press Ctrl+Shift+R for a hard refresh if changes are not visible immediately.

Training Video: Updating Website Settings

Video walkthrough for website settings will be added here.

8 ? Help Center

The Help Center is available inside the Admin Panel at **Settings & Help → Help Center**. It contains:

- This user manual (the document you are reading)
- Frequently Asked Questions (FAQ)
- Glossary of Terms
- Contact information for IT support

Help Button on Every Page

Every admin module page has a ? **Help** button in the top-right corner. Click it to jump directly to the documentation section for that module.

9

Quick Reference

9.1 Recommended Image Sizes

Use Case	Recommended Size	Format	Max File Size
Homepage Banner / Slider	1920 × 1080 px	JPG, WebP	5 MB
News Article Banner	1200 × 628 px	JPG, PNG	3 MB
Event Banner	1200 × 628 px	JPG, PNG	3 MB
Faculty / Staff Photo	400 × 400 px (Square)	JPG, PNG	1 MB
Department Image	800 × 600 px	JPG, PNG	2 MB
Gallery Photos	1200 × 800 px	JPG, WebP	5 MB
College Logo	200 × 60 px	PNG (transparent bg)	200 KB
Favicon	32 × 32 px	ICO, PNG	50 KB

9.2 Common Buttons Guide

Button	What It Does
 Add New / Add [Item]	Opens the form to create a new item
 Edit	Opens the item for editing
 Delete	Permanently removes the item (will ask for confirmation)
 Save / Save Changes	Saves all changes you made — always click this!
 Cancel	Discards all changes and goes back

 Preview / View on Website	Opens the public website page in a new tab
 Upload	Select and upload a file from your computer
 Search	Filter the list to find specific items
 Help	Opens documentation for the current page
 Publish to Website	Makes the item visible to all website visitors
 Save as Draft	Saves the item but keeps it hidden from visitors

9.3 Publishing Workflow (For Every Module)

Step	Action	Where
1	Click "Add New" button	Top-right of module page
2	Fill in all required fields (* means required)	In the form
3	Upload image or file if needed	Image upload button in the form
4	Set Visibility to "Publish to Website"	Visibility / Status dropdown
5	Click "Save"	Bottom or top of form
6	Open website in new tab to verify	Ctrl+Shift+R to hard refresh

9.4 Best Practices — Daily Checklist

1. **Log in every working day** and check for new contact enquiries.
2. **Verify changes on the website** after every save — always open in a new tab.
3. **Use "Save as Draft"** to prepare content in advance, then publish when ready.
4. **Compress images** before uploading — use squoosh.app (free). Large images slow the website.
5. **Write clear titles** — students should understand what an article or notice is about just from the title.

6. **Keep notices updated** — remove expired notices by setting them to Inactive.
7. **Logout when finished**, especially on shared or public computers.
8. **Change password** at least every 3 months.

10

Troubleshooting & FAQ

10.1 Common Problems & Solutions

Problem	Likely Cause	Solution
Cannot log in	Wrong password or account locked	Check credentials. Wait 15 min if locked (20 failed attempts). Reset password if needed.
Image not uploading	File too large or wrong format	Compress with squoosh.app. Ensure JPG/PNG under 5MB.
Changes not visible on website	Browser cache	Press Ctrl+Shift+R (Windows) or Cmd+Shift+R (Mac) to force reload.
Changes not visible after 10 minutes	Server content cache	Contact IT to restart the Next.js server, or wait up to 5 minutes for automatic refresh.
PDF not downloading	Corrupted file or wrong format	Try opening the PDF on your computer first. Re-upload if needed.
"Unauthorized" or "Session Expired"	Login session expired (7 days)	Log out and log back in.
Gallery images appear blurry	Low resolution original image	Upload higher resolution photos (minimum 1200px wide).
"Too many requests" error	Rate limit hit	Wait 2-3 minutes, then try again.
Admin panel looks broken or unstyled	Browser extension conflict	Try in Chrome Incognito (Ctrl+Shift+N). Disable browser extensions if needed.

10.2 Frequently Asked Questions

Q: How do I add another administrator?

A: Currently only one Super Admin is supported. Contact your IT developer to create additional accounts. Multi-user support is planned for v1.1.0.

Q: How do I schedule a notice to appear on a future date?

A: Currently, you must publish manually. Prepare as a Draft and publish it on the intended date. Scheduled publishing is planned for v1.2.0.

Q: How do I permanently delete something I accidentally published?

A: Go to the relevant module, find the item, and click Delete. Or set Status to Inactive to hide it without deleting. Deletions cannot be undone.

Q: Where can I compress images before uploading?

A: Use **squoosh.app** — it's free, online, and works in any browser. Aim for files under 500KB for best performance.

Q: The website is not loading. What do I do?

A: Do NOT make any changes when the website is down. Contact your IT administrator or hosting provider immediately. Note down the exact error message you see.

Q: Can I undo a deletion?

A: No. Deleted items cannot be recovered. Use "Set to Inactive" instead of Delete when unsure — it hides the item without permanently removing it.

Q: How do I update the principal's photo or message?

A: Go to Website Pages, find "About Us" or "Principal's Message", click Edit, update the text and photo, and Save.

Q: My session keeps expiring. How do I stay logged in longer?

A: Sessions expire after 7 days of inactivity. Simply log in again. For security, this cannot be disabled.

10.3 Glossary — Simple Language Guide

Term You See	What It Means in Simple Language
--------------	----------------------------------

Slug / Page URL	The web address for a page (e.g., /about-us). Do not change.
Status: Active	The item is live and visible on the website.
Status: Inactive	The item is hidden from visitors but not deleted.
Publish to Website	Make the item immediately visible to everyone.
Save as Draft	Save the work but keep it hidden until you're ready.
SEO / Search Engine Settings	Settings that help your website appear in Google search results.
Media Library	A central place where all uploaded images and files are stored.
Banner / Slider	The large sliding images at the top of the homepage.
Hard Refresh	Press Ctrl+Shift+R to force the browser to show the latest version of the page.
Cache	A saved copy of the website that the browser shows. Sometimes needs to be cleared.
ISR (5 min wait)	Sometimes it takes up to 5 minutes for changes to appear — this is normal.
